NGUYEN QUOC MINH

BUSINESS ANALYST INTERN

0399 393 099 | nguyenquocminh.trading@gmail.com

CAREER SUMMARY

Business-oriented analyst with a strong quantitative foundation in finance and data analytics. Experienced in transforming raw data into structured insights to support business decision-making, performance evaluation, and strategic analysis. Hands-on experience with Excel, Python, and Power BI for data processing, automation, and reporting. Strong problem-structuring, analytical thinking, and communication skills developed through applied projects and business case competitions.

TECHNICAL SKILLS

Data & Business Analysis Tools

- Excel (Advanced formulas, Pivot Tables, Scenario & Sensitivity Analysis)
- Python (Data cleaning, analysis, automation)
- Power BI (Dashboard design, KPI visualization)

Analytical & Business Skills

- Data Analysis & Interpretation
- Business Performance Analysis
- KPI Design & Monitoring
- Forecasting & Scenario Analysis
- Problem Structuring & Hypothesis-driven Analysis
- Basic Financial Modeling & Valuation

COMPETITIONS & PRACTICAL EXPERIENCE

Financial & Business Analysis Project (Academic / Independent) Jan 2023 - Present

- Built an automated business performance reporting system using Excel and Python, transforming raw financial data into standardized analytical outputs.
- Designed data pipelines to clean, normalize, and structure multi-source datasets for consistent analysis.
- Developed KPI-based reports and dashboards to support internal performance evaluation and data-driven decision-making.
- Reduced manual data processing time and improved reporting accuracy and transparency.

(Project ongoing)

CFA Research Challenge – Top 5 Team (HCMC) Oct 2025 – Dec 2025

- Equity Research & Business Analysis Competition | Oct 2025 – Dec 2025
- Analyzed company business models, industry dynamics, and operational drivers to evaluate performance, risks, and growth sustainability.
- Applied structured analytical frameworks to synthesize financial and non-financial data into actionable insights.
- Presented findings and recommendations clearly to judges under professional standards.

RBAC Competition 2024 Oct 2025 – Dec 2025

Business Analysis Case Competition | Oct 2024

- Solved real-world business problems under time constraints using data-driven reasoning.
- Identified key business issues, analyzed available data, and proposed practical, actionable recommendations.
- Strengthened problem definition, logic structuring, and presentation skills.

EDUCATION

Bachelor of Finance and Accounting Vietnamese German University GPA 2.0/1.0
